Specialists In Companion Animal Neurology **Moves to New Naples Location**

NAPLES, Fla. - JUNE. 12, 2017 – Specialists in Companion Animal Neurology (SCAN), the Gulf Coast's leading provider of neurology and neurosurgery for four-legged patients suffering from disorders of the brain, spinal cord and neuromuscular system, announced today that it has relocated its Naples practice to a larger and more modern space.

Led by Dr. Nick Archambault and Dr. Michelle Carnes, the new, 4,300 square-foot office is located at 2575 Northbrooke Plaza Drive, Building 100, Naples, FL 34119.

Formerly associated with Animal Specialty Hospital of Florida (ASH), SCAN's move stems from its continued growth and allows the company to meet the increased demand for veterinary neurology and neurosurgery in Lee and Collier Counties.

"We are extremely excited to have such an amazing team of board-certified neurologists/neurosurgeons and skilled support staff who work closely with primary care veterinarians to provide unparalleled treatment for a wide variety of neurological disorders," said Dr. Michelle Carnes, medical director. "We're thrilled to be in our new space and we are very pleased about the improved diagnostic and treatment capabilities we can now provide to pets when struggling with nervous system disorders or disease."

With locations in Naples, Sarasota, and a new practice opening Summer 2017 in Clearwater, Fla., SCAN provides the best diagnostic capabilities and treatment expertise available. In fact, SCAN hospitals are the only hospitals on the Gulf Coast of Florida that currently utilize on-site, high-field MRI technology; the MRI machines are purchased from human facilities and re-purposed for veterinary use. It is this exceptional focus on the diagnosis and treatment of diseases of the nervous systems that

makes SCAN an invaluable resource to referring veterinarians who wish to refer their neurological patients.

For more information visit our website at www.scanfl.com. To schedule interviews or a tour of the new location please contact marketing director, Tara Hustedde at 813-785-5320 or email thustedde@scanfl.com.
